

INTRODUCTION

M/C Galapagos Seaman Journey is a first class catamaran offering superior comfort, size, style, and stability. The Galapagos Seaman Journey makes it possible to enjoy several cruises in the Galapagos with different itineraries that include amazing land tours on most of the Galapagos Islands. During these Galapagos Cruises, guests encounter many endemic species like Galapagos Giant Tortoises, Penguins, Land and Marine Iguanas, Frigate Birds, Blue Footed Boobies, and much more!

Please note that the below itinerary is a guide and that itineraries vary depending on departure date. Your sales consultant will provide you with more details on the different itinerary options available and applicable departure dates.

The Seaman Journey Experience

M/C Galapagos Seaman Journey is an expeditionary first class catamaran that began sailing the Galapagos Islands in January 2008. Superior comfort, size, style, and stability are what you can expect when choosing this catamaran to fulfill your Galapagos adventures wants and needs. This vessel, with a maximum capacity of 16 passengers, provides in each of its corners, areas for rest and recreation for everyone. For the adults who might want to relax and kick back, we offer a great bar and lounge area where they are served by our bartender whilst you relax and watch the Galapagos go by. Make landings on sites that offer beautiful scenery and the ability to get up close and personal with the archipelago, accompanied by the knowledgeable staff members found on board who will offer you intel and insight into this magnificent part of the world. The M/C Galapagos Seaman Journey, another jewel from the well known Galapagos Journey Fleet, the perfect combination of adventure, comfort, service and excellence that offers four, five, eight, eleven, twelve and fifteen day itineraries.

GREEN POINTS!

• The Seaman is single use plastic free • Reusable water-bottles are offered to all guests • Naturalist guides offer educational environmental lectures to all guests. •

ITINERARY

DAY 1: Arrival & San Cristobal, Interpretation Center

Begin your Galapagos adventure with a morning flight to the Galapagos Islands. Please note the Galapagos Government requires a fee of \$20 for the migration control card. Upon arrival in San Cristobal, passengers must pass through an airport inspection point to prevent the introduction of foreign plants or animals to the archipelago. Here, passengers also pay for entrance to the Galapagos National Park: \$200 for foreigners and \$100 for children under 12. Your guide will then meet you and assist with your luggage, transporting you to the Catamaran Seaman Journey via a motorized boat called Panga. In the afternoon, visit the Gianni Arismendy Environmental Interpretation Center. It features lush gardens and breathtaking ocean views, offering insights into the islands' geological and human history, conservation efforts, and natural history. As the oldest natural history museum in the Galapagos Islands, it's a testament to ongoing preservation efforts, inspiring and educating visitors through research and conservation initiatives.

GALAPAGOS ISLANDS - GALAPAGOS WEST, CENTRAL & NORTH ISLANDS CRUISE | SEAMAN JOURNEY

DAY 5: Breeding Centre & Santa Cruz Highlands

In the morning, you'll explore the Fausto Llerena Breeding Centre, nestled within the Galapagos National Park along Charles Darwin Avenue, just a kilometer away from the Gus Angermeyer Tourist Pier. After a scenic 40-minute stroll, you'll enter this captivating attraction, an integral part of the Charles Darwin Foundation's network of visitor sites. Your journey begins at the information booth of the Galapagos National Park Service (SPNG), leading you through the Van Straelen Interpretation Centre and onward to the breeding centre. Here, an elevated circular wooden path offers panoramic views of Lonesome George and the tortoises of Española Island before culminating at the tortoise exhibition corral. In the afternoon, your guide will meet you to embark on a highlands adventure in Santa Cruz. You will be taken by bus to the first visit to Ranch Manzanillo where visitors must wear comfortable walking shoes, light clothing, a waterproof jacket, sunscreen, a camera, and repellent for the first activity. The visit to Ranch Manzanillo includes a picnic lunch and a short walk before boarding the Catamaran. It is important to follow these instructions to accomplish this itinerary properly. Santa Cruz offers excellent opportunities to observe the wild Galapagos Tortoises. Tracking tortoises is not the only exciting activity to be found in the highlands. There are also plenty of lava tubes, sinkholes, and craters ready to be explored.

Galapagos Islands, Ecuador

In the morning, you'll explore Moreno Point on Isabela Island, situated along its northern coast between the towering Sierra Negra and Cerro Azul volcanoes. Traverse a trail that meanders along a Pahoehoe lava flow, characterized by its corrugated or accordion-like texture, leading you into a maze of coastal lagoons. These serene lagoons and mangroves are teeming with diverse bird species, offering a picturesque backdrop for exploration. Later in the afternoon, you'll venture to Mangle Point off the eastern shores of Fernandina Island. This idyllic spot is renowned for its exceptional snorkeling opportunities and scenic rides through a lush grove of mangrove trees aboard a panga or zodiac. A leisurely hike of approximately half a mile is also an option. As you navigate the waters, keep your eyes peeled for sightings of sea lions, tortoises, pelicans, rays, and a myriad of bird species, adding to the enchantment of your marine adventure.

DAY 8: Espinoza Point & Vicente Roca Point

In the morning, explore Espinoza Point on Fernandina Island, renowned for its large colonies of marine iguanas and unique species such as the flightless cormorant, Galapagos penguin, Galapagos hawk, and Galapagos snake. In the afternoon, venture to Vicente Roca Point, one of the most breathtaking spots in the enchanting Galapagos Islands. With towering cliffs and stunning formations of tuffstone, ash, and lava, Punta Vicente Roca exudes majesty. Located on the northwestern coast of the island, it consists of two distinct islets and boasts a spectacular marine life. Keep an eye out for seahorses, sea turtles, and the intriguing Mola-mola or sunfish. This bay offers excellent opportunities for Panga rides and snorkeling, where you may encounter penguins, blue-footed boobies, terns, boobies, and sea lions. Dive into the crystal-clear waters to observe sea turtles, stingrays, and pufferfish, adding to the richness of this remarkable destination.

DAY 9: Santiago Island: Espumilla Beach & Puerto Egas

In the morning, visit Playa Espumilla on Santiago Island, situated on the northern coast in James Bay. This beach underwent changes during the last El Niño phenomenon, leading to the sedimentation of one of its lagoons and the disappearance of a significant flamingo colony. Despite this, the area remains captivating, with highlights including the Palosanto forest and the nesting of baby turtles. In the afternoon, explore Puerto Egas, known for its black beach located on the west side of the island. This unique beach owes its distinctive black sand to volcanic tuff deposits. The site earned its name from an unsuccessful attempt to exploit salt, as the low price of salt on the mainland made it unviable in the Galapagos. Consequently, the project was abandoned, leaving behind remnants of infrastructure amidst the rugged beauty of the landscape.
