ITINERARY

DAY 1: Kangerlussuaq, Greenland

Begin your journey by sailing out of Kangerlussuaq Fjord (Søndre Strømfjord), a 190-kilometre-long fjord surrounded by mountains and glaciers. Cross the Arctic Circle on your way and spend time on deck watching for aurora borealis. Kangerlussuaq, the settlement at the head of the fjord, is a former US Air Force base. After your (optional) charter flight from Toronto, ON, you'll transfer to the ship by Zodiac. Please note the charter flight package is not included in the cruise fare and an additional cost applies.

DAY 2: Kangerlussuatsiaq Fjord (Evighedsfjorden)

Kangerlussuatsiaq, meaning 'the rather big fjord' in Greenlandic, and its Danish name, Evighedsfjorden, or 'the fjord of eternity,' reflect its vast, seemingly endless expanse. Discover why this fjord lives up to its name, featuring calving glaciers, dramatic bird cliffs, and streams flowing down towering mountains. Explore the stunning glacial scenery by ship and Zodiac. The waters are relatively warm, influenced by the West Greenland Current and the subarctic climate.

DAY 3: Nuuk

Take the opportunity to visit Nuuk, Greenland's capital and the world's northernmost capital. Meaning 'the headland,' Nuuk is located at the mouth of a vast fjord system. Founded in 1728 as Greenland's first town, it remains the country's vibrant hub. During your visit, you may spot humpback whales in the fjord, reindeer on the land, and birds in the sky. Nuuk is home to the University of Greenland, a historic cathedral from 1849, and the National Museum, where the famous Qilakitsoq mummies are displayed. Enjoy a guided tour of this lively city and explore its cultural landmarks at your own pace.

Keep your binoculars handy to spot whales and seabirds following our ship.

DAY 5: Ungava Bay: Days 5 & 6

Visit Akpatok Island, the largest island in Ungava Bay, covering over 900 square kilometers. Named after the akpait (thick-billed murre) that nest on its steep cliffs, it hosts Canada's largest colony of these birds. Ungava Bay, large and shallow, is a vibrant ecosystem, home to diverse wildlife, including an endangered beluga population.
